

ASSURE DEFI®
THE VERIFICATION GOLD STANDARD

SECURITY ASSESSMENT REPORT

NAME:

AURA

STATUS:

PASS

DATE:

31/07/2026

Risk Analysis

Vulnerability summary

Classification	Description
 High	Vulnerabilities that can lead to loss or theft of funds, permanent locking of assets, unauthorized minting/burning, protocol insolvency, or full control of the contract or protocol. These issues are typically exploitable on-chain and require immediate remediation.
 Medium	Vulnerabilities that weaken protocol security or trust assumptions but do not directly enable immediate loss of funds under normal conditions. Exploitation may require specific conditions, privileged roles, or external failures.
 Low	Issues that have limited direct impact on funds or protocol integrity but may cause unexpected behavior, reduced resilience, or future exploitability if combined with other weaknesses.
 Informational	Findings that do not represent security vulnerabilities, but highlight code quality, clarity, maintainability, or best-practice improvements that may enhance long-term safety and auditability.

SCOPE

Target Code And Revision

Project	Assure
Codebase	https://bscscan.com/address/0x0a3bDa1805Db17f4e430eFE1295366E210538199#code
Audit Methodology	Static, Manual

Detailed Technical Report

No high severity issues were found.

MEDIUM

No medium severity issues were found.

No low severity issues were found.

INFORMATIONAL

No informational severity issues were found.

Technical Findings Summary

Findings

Vulnerability Level	Total	Pending	Not Apply	Acknowledged	Partially Fixed	Fixed
● High						
● Medium						
● Low						
● Informational						

Assessment Results

Score Results

Review	Score
Global Score	90/100
Assure KYC	Not completed
Audit Score	90/100

The Following Score System Has been Added to this page to help understand the value of the audit, the maximum score is 100, however to attain that value the project must pass and provide all the data needed for the assessment. Our Passing Score has been changed to 84 Points for a higher standard, if a project does not attain 85% is an automatic failure. Read our notes and final assessment below. The Global Score is a combination of the evaluations obtained between having or not having KYC and the type of contract audited together with its manual audit.

Audit PASS

Following our comprehensive security audit of the token contract for the **Aura** project, the project did **meet the necessary criteria required to pass the security audit.**

Disclaimer

Assure Defi has conducted an independent security assessment to verify the integrity of and highlight any vulnerabilities or errors, intentional or unintentional, that may be present in the reviewed code for the scope of this assessment. This report does not constitute agreement, acceptance, or advocating for the Project, and users relying on this report should not consider this as having any merit for financial Token in any shape, form, or nature. The contracts audited do not account for any economic developments that the Project in question may pursue, and the veracity of the findings thus presented in this report relate solely to the proficiency, competence, aptitude, and discretion of our independent auditors, who make no guarantees nor assurance that the contracts are entirely free of exploits, bugs, vulnerabilities or deprecation of technologies. All information provided in this report does not constitute financial or investment in Token, nor should it be used to signal that any person reading this report should invest their funds without sufficient individual due diligence, regardless of the findings presented. Information is provided 'as is, and Assure Defi is under no covenant to audit completeness, accuracy, or solidity of the contracts. In no event will Assure Defi or its partners, employees, agents, or parties related to the provision of this audit report be liable to any parties for, or lack thereof, decisions or actions with regards to the information provided in this audit report. The assessment of Tokens provided by Assure Defi are subject to dependencies and are under continuing development. You agree that your access or use, including but not limited to any Tokens, reports, and materials, will be at your sole risk on an as-is, where-is, and as-available basis. Cryptographic tokens are emergent technologies with high levels of technical risk and uncertainty. The assessment reports could include false positives, negatives, and unpredictable results. The Token may access, and depend upon, multiple layers of third parties.
